## The “Pro” Upgrade

- Save field boundaries in the Client/Farm/Field hierarchy to the map for future use.
- Create and Save application records, order forms, & more under the client record.
- Customize the application forms’ content and layout to fit your company needs.
- Batch download SatLoc<sup>®</sup> job files.
- Easily create map packets and Overview Maps using the Dossier Studio
- Link your work orders with your customer’s Surety account to have them submit their fields directly into your Surety<sup>®</sup> Pro account.

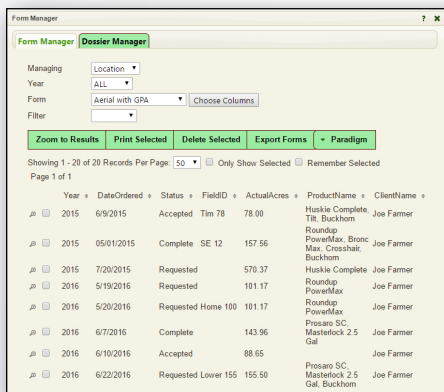

## SatLoc<sup>®</sup> HQ file transfer

Connect your SatLoc<sup>®</sup> HQ software to your Surety<sup>®</sup> Pro account to send and receive job files and log files to and from your plane or helicopter without the usb memory stick.

- Create and send boundaries from Surety<sup>®</sup> Pro to SatLoc<sup>®</sup> HQ as job files directly from the export screen or an aerial application form.
- Download as-applied log files from the SatLoc HQ server directly to your Surety Pro account and view the flight path, spray path, and spray swath.

## Work Order Management

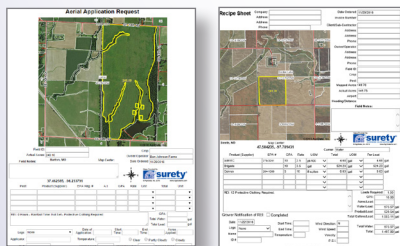

Year	DateOrdered	Status	FieldID	ActualAcres	ProductName	ClientName
2015	6/9/2015	Accepted	Tim 78	78.00	Huskie Complete TR, Buckhorn	Joe Farmer

2016	6/10/2016	Accepted		88.65	Gal	Joe Farmer
2016	6/22/2016	Requested	Lower 155	155.50	Prosaro SC, Masterlock 2.5 Gal, Buckhorn Gibson, SC	Joe Farmer

The **Form Manager** included in Surety<sup>®</sup> Pro is a multi-functional organization and editing tool built to store, sort, filter, print, batch, and export your saved application work orders. Here is some of what can be accomplished with the Form Manager:

- See a list of all saved forms and sort by almost anything including Status, Date, type, product, client, location, and much more.
- Reopen any form for editing.
- Create Overview maps with any number of selected records.
- Export the form records as shapefiles to use in other programs.
- Batch print saved forms
- Create custom filters to limit the shown records in the list and on the map.

## Customized Form Layouts

Surety<sup>®</sup> Pro’s **Form Designer** puts you in control of the map, layout, and data inputs for your printable Surety forms. Use this designer to convert your existing Excel, Word or PDF document templates into Forms right within your Surety Pro account! Don’t have experience with design software? No worries! Just send your request to us and one of our experts will build it for you as well as give you suggestions on other options you can utilize to enhance your mapping!
