

# Custom Forms

**Design** a form with the map, layout, and data that you need. Surety and Surety Pro users can have the professionals at AgriData design a company specific form OR Surety **Pro** users can design the form themselves with the Form Designer.

**Optimize** your mapping by ridding your forms of unnecessary information and adding the requirements that meet your needs.

**Visualize** your form data in Surety<sup>®</sup> Pro by coloring, labeling, and filtering information from your forms and display them on the map to aid in your decision making.
